

2020/08/06 Start: 15:34 UTC **End:** 16:18 UTC

Participants: Steve McManus, Yan Berthier, Shane Kerr, Matt Griswold, Arnold Nipper

Agenda:

- Next release with Data Ownership issues
 - How are we feeling about it? Ready to go or needs more bake in time?
 - Let's do it August 26th
 - Webinar? - Let's do it next week (week of 10th)
- peeringdb python client
- Next release priorities
- Use cases for UX designer
- Self-selection fields for IXes and Facilities on what services they offer
 - IXes: Free/Paid? (various flavors of paid exist)
 - SLA?
 - OpenIX certified? Verify this? Integrate w/ openix api or some such?
 - Facilities: Are they big or small (A few racks, A floor, Many Floors)
 - Square feet/meters
 - Amount of power offered in aggregate
 - Resilience factor
 - Network:
 - MANRS certified - could pull from API
 - Enough here to make issues for each of the 3 objects
- Advanced search options:
 - Show me IXes or Facilities where one of these networks is present (and I'm not?)
 - Show me IXes with at least this much total capacity
 - Seems interesting enough to have in an advanced search. Let's add an issue to track that work
