Agenda:

- Welcome Leo to product manager role
- Data ownership task force release lookback:
 - How did it go?
 - Some gaps in spec vs implementation
 - Didn't have a testing plan for the work - what we're going to do and by whom
 - What could we do better next time on a big release like this?
 - Break up internal and user facing side when feasible
- Any critical issues need addressing?
 - 826
- Next big feature release. What do we want to tackle next?
 - Let's tackle Geo stuff
- FYI - Board is putting common language for dispute resolution and chair election/selection process.
 - Should be ratified soon.
