

2025-05-01 Start: 16:30 UTC **End:** 17:30 UTC

Participants: Pete, Paul, Jack, Grizz, Yolandi, Leo, Jeff, Martin, Steve

Apologies: Arnold

Main agenda

- IX-F imports and connection speed. Should changes be accepted? [#1614](#) says yes but [#793](#) said no. Is it time to change?
 - Allow updates if the “allow updates” config is selected.
- Should we create a simple way to exclude resources like ASNs and facilities from public listing in PeeringDB? Currently, some ASNs and Facilities get added and then need to be removed. Could we add a status type like “Private” which can be controlled through the webUI and API?
 - Let’s get more info here

- Roadmap review in call

Number	Title	Summary	Consent Finalized?
#1736	Planned status with relevant "saved search" and "notification" options	Do we accept the design ?	No / tabled
#1630	Allow facilities to be added from facility page directly	Do we accept the design ?	OK
#1558	Improve IX object export data and capabilities	Review the design and select the preferred proposal. The options are: <ol style="list-style-type: none"> 1. Create a new issue to add table results format with export capabilities to search v2 2. Add entity presence (net at ix, net at fac, ix at fac) search functionality to search v2 (currently only available in advanced search) 3. Do nothing, it's good as is. 	OK
#1735	Linked or "also known as" facilities functionality	Add support for well known synonyms for facilities with a different formal name. If we support this in principle, how should we implement it?	Get a design developed and look at a building object Consider creating

Number	Title	Summary	Consent Finalized?
			an issue for a more flexible radius search
#1662	Suggest a Carrier/Facility Presence Control	User request for a "Suggest a Carrier" similar to the "Suggest a Facility" feature we already have	Get a design developed
#1755	New permission type for accredited user	A new kind of user without resources and a permission type for sharing private contact information with them.	Oauth without an ASN?
#1760	Automate authentication for new registrant of recycled ASNs	Speed up registration for recycled ASNs with some automation. Lower the burden on the AC.	Get a design developed
#1761	Create new "Private" status so resources can be hidden from public view	Let owners of a resource keep it private. Some ASNs and facilities get added and removed regularly, this issue is designed to avoid that problem.	Research problem

Consent Agenda

Non-contentious issues that can be agreed in a single vote. Members can ask for an issue to be placed on the main agenda if they want it to have more discussion.

Number	Title	Summary	Consent Finalized?
#1644	New Facility Object Website Scheme Entry Failure	Bug?	Closed

Informational

No action required. Members should be aware that these new issues have been agreed since the last meeting.
