Bugs	Not Bugs
20%	80%

Percentages might not add up 100% because of rounding

GitHub Milestone Categories	Number	%
Agreed for v3 API	2	2
Yet To Decide / to be decided	48	36
Consensus Reached	0	0
Consensus Finalized	1	1
Needs Implementation Discussion	30	23
Ready for Implementation	36	27
Scheduled	15	11

Note: A group of issues in "Decide" status without discussion for six months or more were closed since the August 2025 meeting.

LAST THREE MONTHS
There is generally one release per month. Urgent bugs can be fixed with an emergency point release. There is no scheduled release during December.

Some operations work is not included in the GitHub issue summary.

Issues Closed	
Major enhancement	3

Other enhancements	8
Bugs	9
Total	20

RELEASE OVERVIEW
Next Release (September, 2.72.0)

#1796	**Major enhancement** Support setting logo per object and not just per org	Implementing this will return parity to web and API, with logos being returned by the API.
#1794	**Noteworthy minor enhancement** Add a "Peering" Contact Type in the Contact Information	This will add a tooltip pointing at the HOWTO, so that users are more likely to understand the already defined contact types.
#1815	**Noteworthy bug fix** Icelandic address normalization bug	Some address data in Iceland and Germany were normalized to the wrong states.

Schedule for major issues

Month, version	Major feature	Narrative
October, 2.73.0	SLIs for PeeringDB load time	We'll develop and implement an initial set of service level indicators. We should have data in time that we could schedule improvements for deployment in our January 2026 release.
November, 2.74.0	Iterate new webUI ahead of expanding to 20% of users	As title. Depends on +1 votes from PC. Please vote!
December	NO RELEASE	
January, 2.75.0	Changes (possibly operational) arising from SLIs.	No issue created yet.

Main agenda
- Laurant Jarbinet has stepped down from the Product Committee. We are grateful to Laurent for his membership.

- Search and automated testing: current situation and suggested approach for improvement. grizz@20c.com (see [#1822](#) below)
- Network IX adds & deletes are immediate ([#808](#)) is harder than we thought. We could address it through documentation or a more significant software change. grizz@20c.com
  - JC: harder than expected, probably wont fix unless worth huge effort
  -
- Do we need to ensure that data returned through the API uses a small portion of Unicode, so it doesn't surprise applications pulling it automatically and not expecting characters like ☀☯➹ in names.
  - We've always supported Unicode
  - Some clients/tools are having problems
- Informational: [This is the set of questions](#) we'll use for the 2025 survey.
- Performance / reliability re [1835](#)

Number	Title	Summary	Consent Finalized?
[#1789](#)	Iterate new webUI ahead of expanding to 20% of users	Get new web design implemented and deployed to a fifth of users	OK
[#1825](#)	Make "Copy API Query" Feature Available in Advanced Search	Duplicate existing functionality in simple search for each Advanced Search tab.	
[#1822](#)	Integration Testing with Live Elasticsearch	Improve automated testing for search by running full end-to-end tests against live services.	
[#1819](#)	Derive Continental Region from Country automatically	Can we automatically select one of the existing routing regions from the IX's country or countries? - Consider dropping the field as it is ambiguous	
[#1516](#)	Report data' opens my mail client	Users objected to a mailto link as they don't have a mail client configured but want to be able to report bad data. They request a report function fully integrated into the website.	

Consent Agenda

Non-contentious issues that can be agreed in a single vote. Members can ask for an issue to be placed on the main agenda if they want it to have more discussion.

Number	Title	Summary	Consent Finalized?
#1793	Implement a Contact Form to Replace Direct Committee Email Addresses in Presentations	Remove addresses from the website and replace them with a form.	?
#1830	Remove "Require users in your organization to enable 2FA." radio button from Org > Users tab	As title	OK
#1834	Reverse action order for export interstitial and add color to button	As title	OK

Informational

No action required. Members should be aware that these new issues have been agreed since the last meeting.

Number	Title	Bug?	Summary

AOB

- PeeringDB performance: see #1835 asking for PeeringDB to be hosted on a big CDN. Note: we have already asked the PeeringDB board for guidance on performance issues.
