## BACKLOG OVERVIEW

PC members can [click here](#) for the an issue status and planning overview

Bugs	Not Bugs
18%	82%

Percentages might not add up 100% because of rounding

GitHub Milestone Categories	Number	%
Agreed for v3 API	2	1%
Yet To Decide / to be decided	49	36%
Consensus Reached	0	0%
Consensus Finalized	2	1%
Needs Implementation Discussion	28	21%
Ready for Implementation	33	24%
Scheduled	22	16%

## LAST THREE MONTHS

There is generally one release per month. Urgent bugs can be fixed with an emergency point release. There is no scheduled release during December.

Some operations work is not included in the GitHub issue summary.

Issues Closed	
Major enhancement	4
Other enhancements	7
Bugs	13

Total	24

## RELEASE OVERVIEW

Next Release (February, 2.76.0)

<a href="#">#1849</a>	<b>Major enhancement</b> Add rate limiting for unauthenticated web pages queries	This will prevent resources being consumed by scrapers. It will protect service provision to authenticated users.
<a href="#">#1814</a>	<b>Noteworthy minor enhancement</b> Improve Passkey or Security Key login flow	This will improve the login experience.
<a href="#">#1889</a>	<b>Noteworthy bug fix</b> Security key setup fails on some conditions	As per title.

### Schedule for major issues

Month, version	Major feature	Narrative
March, 2.77.0	Use RPKI to verify Networks and IXPs during sign-up	Users will be able to demonstrate that they control a network using RPKI Signed Checklists (RSCs). Users will need their RIR or NIR to have developed support.
April, 2.78.0	Allow disabling either passwords or TOTP for users with passkeys	This will improve the login experience.
May, 2.29.0		

### Main agenda

- Inviting proposers of issues to PC meetings to explain issues and answer PC questions.  
See:  [Engaging with the Product Committee](#)
  - Yes to actively engaging with people, perhaps outside of regularly scheduled meeting calls.
- Should we notify fac owners when we don't have a geocode for them, so they are encouraged to manually enter it and improve the quality of the data? (See: [discussion in AC Slack channel](#))

- Open an operations ticket to make sure everyone without a geocode gets one.
  - If a fac doesn't have an exact match geocode, put a pin on the centroid for the city.

Number	Title	Summary	Consent Finalized?
<a href="#">#1888</a>	Allow minimum port speed of 50M?	<p>Do any IXPs actually offer 50MB ports?</p> <ul style="list-style-type: none"> <li>● Some older entries have a speed not currently supported.</li> <li>● Maybe rename it to “port capacity” to make it clear that we’re reflecting the hardware port speed.</li> </ul>	Consensus Reached
<a href="#">#1832</a>	Enhancement of the Auto-IX process	<p>Improve data quality: avoid accidentally approving IXs submitted by networks who make a configuration mistake</p> <ul style="list-style-type: none"> <li>● IX-F feed could be hardcoded. No need to implement software. No requirement to already have any ID’s from the IXPDB.</li> <li>● Also, improve public and process documentation.</li> </ul>	Consensus Reached

### Consent Agenda

Non-contentious issues that can be agreed in a single vote. Members can ask for an issue to be placed on the main agenda if they want it to have more discussion.

Number	Title	Summary	Consent Finalized?
<a href="#">#1891</a>	Broken AS-SET checking	<p>We’ve accepted at least one invalid name for a set object. Should we do realtime checks for both syntax and existence of set objects?</p> <ul style="list-style-type: none"> <li>● We need better documentation on what is an AS-SET, why to have one, how to format the name.</li> <li>● Can do some realtime checking with user feedback.</li> </ul>	Yes

**Informational**

No action required. Members should be aware that these new issues have been agreed since the last meeting.

Number	Title	Bug?	Summary
<a href="#"><u>#1885</u></a>	Port Location not shown on IX.	Yes	Info is in the network view and should be in the IX view
<a href="#"><u>#1886</u></a>	Drop down button incorrectly placed out of page	Yes	As title
<a href="#"><u>#1889</u></a>	Security key setup fails on some conditions	Yes	As title

**AOB**

- None
