## RELEASE OVERVIEW

Next Release (April, 2.78.0)

### Schedule for major issues

Month, version	Major feature	Narrative
April, 2.78.0	Allow disabling either passwords or TOTP for users with passkeys	This will improve the login experience.
May, 2.79.0	User Journey Analysis	This will give us statistical data on how users move through the site so we can identify areas for improvement and refine features to make users happier
June 2.80.0	Design development for “Add RFC8950 marker for IX memberships (similar to RS marker)”	Design a way to show how networks can indicate IPv4 NLRI with an IPv6 next hop

### Main agenda

- Desynchronize operational changes from code releases `grizz@20c.com`
  - Now makes more sense to dsynchronize op changes from code releases as we can do hitless releases now.
- Consider reviewing PeeringDB in a structured way, so we can identify related groups of improvements and schedule linked changes together, simplifying development and testing.

Number	Title	Summary	Consent Finalized?
<a href="#">#1949</a>	Export to file of the “IX-F Import Preview”	Would be nice if the preview of changes that an IX-F import will make could be exported, so the IXP can fix any errors before confirming a new import.	OK
<a href="#">#1928</a>	API output format significantly differs from spec	Pick an option for how to address this finding. <ul style="list-style-type: none"> <li>• Spec will match endpoints, ready for deployment</li> </ul>	OK

Number	Title	Summary	Consent Finalized?
<a href="#">#1948</a>	Auto-close DeskPro ticket when pending → deleted status change happens	Should this be in the server or run from elsewhere?	OK
<a href="#">#1943</a>	Give users more granular control over what to accept from IX-F imports	Let users only accept IP address, or reject elements, like port speed.	OK
<a href="#">#1942</a>	Remove networks faster when the RIR/NIR reclaims an ASN	Possibly move from 3 months to 1 week, or even the next day. <ul style="list-style-type: none"> <li>Consensus on ASAP with notification</li> </ul>	OK

### Consent Agenda

Non-contentious issues that can be agreed in a single vote. Members can ask for an issue to be placed on the main agenda if they want it to have more discussion.

Number	Title	Summary	Consent Finalized?
<a href="#">#1944</a>	Update UI design for Peers at this Exchange Point and Public Peering Exchange Points tables	Get some design ideas quickly for discussion. Then get a designer to create the one we agree on.	OK

### Informational

No action required. Members should be aware that these new issues have been agreed since the last meeting.

Number	Title	Bug?	Summary
<a href="#">#1957</a>	Unable to open OAuth Details page for OAuth id:671	Yes	As title
<a href="#">#1945</a>	Duplicate user → organisation affiliation requests	Yes	As title
