

PeeringDB

What's New and What's Next

Arnold Nipper

arnold@peeringdb.com

What is PeeringDB?

Mission statement: “PeeringDB, a nonprofit member-based organization, facilitates the exchange of user maintained interconnection related information, primarily for Peering Coordinators and Internet Exchange, Facility, and Network Operators.”

- A PeeringDB record makes it easy for people to find you, and helps you to establish peering
- If you aren't registered in PeeringDB, you can register at <https://www.peeringdb.com/register>
- We use basic verification for new accounts and require current whois information, so please
 - Update and maintain your whois information
 - Register from an email address associated with your ASN /company

Governance and Membership

- PeeringDB is a United States 501(c)(6) volunteer organization that is 100% funded by sponsorships
- Healthy organization, building financial reserves and executing the long-term strategic plan
- Membership rules
 - A corporation, limited liability company, partnership or other legal business entity may be a Member of the Corporation
 - Membership is determined by having both an active PeeringDB.com account and an individual representative or role subscription to the PeeringDB Governance mailing list
 - 515 addresses subscribed to the Governance mailing list as of September 16, 2025
 - Each year half of the board is up for election
 - Governance list is at <https://lists.peeringdb.com/cgi-bin/mailman/listinfo/pdb-gov>
 - More information available at <https://docs.peeringdb.com/gov/>

Board of Directors and Officers

Shawna Bong – Secretary
and Treasurer

Alexandre Corso – Director
(Term Expires 2027)

Aaron Hughes –President
(Term Expires 2026)

Livio Morina – Vice President
(Term Expires 2027)

Isabel Odida – Director
(Term Expires 2027)

Job Snijders – Director
(Term Expires 2026)

New 2024-2025 Strategic Plan

- The 2024-2025 strategic direction and organizational objectives were published in January
 - Maintaining services
 - Developing new features
 - Engaging with the community
 - Ensuring the long-term stability of the organization
- Full version is here: https://docs.peeringdb.com/gov/misc/2025-01-23-PeeringDB_Strategic_Plan_2024-2025.pdf
- Board also approved a 50% increase in hours available for combined development and operations

Committees

Admin Committee	Operations Committee	Outreach Committee	Product Committee
<ul style="list-style-type: none">• Manage administration of user accounts and PeeringDB records• Answer support tickets• Cleansing and completion of PeeringDB records <p>Leads: Chriztoffer Hansen (Chair) and Peter Helmenstine (Vice Chair) Contact: admincom@lists.peeringdb.com</p>	<ul style="list-style-type: none">• Manage PeeringDB infrastructure <p>Leads: Job Snijders (Chair) and Aaron Hughes (Vice Chair) Contact: pdb-ops@lists.peeringdb.com</p>	<ul style="list-style-type: none">• Manage marketing and social media• Develop and maintain presentations, workshops and webinars• Coordinate presentations and attendance at events <p>Leads: Ben Ryall (Chair) Contact: outreachcom@lists.peeringdb.com</p>	<ul style="list-style-type: none">• Manage roadmap and development priorities• Ask for input from the community on desired features• Write SoWs to solicit bids to complete requested features <p>Leads: Jack Carrozzo (Chair) and Matt Griswold (Vice Chair) Product Manager: Leo Vegoda Contact: productcom@lists.peeringdb.com</p>

PeeringDB is Open Source Software!

- Open source release announcement on 2018-11-10
 - Released under the 2-Clause BSD License:
<https://opensource.org/licenses/BSD-2-Clause>
- Beneficial to the peering and interconnection community by promoting innovation
 - Allows volunteers to contribute
 - Makes it easier for third parties to bid on new features specified by the Product Committee
 - A process for accepting contributions will be announced
- Source code is available on GitHub:
<https://github.com/peeringdb/peeringdb>

We (always) Need Beta Testers

Consider using the Beta environment as default

- Just over half a percent of users visit beta.peeringdb.com each month
 - We recognize that there are good and bad reasons for this!
- As of release 2.57.0, beta.peeringdb.com refreshes once an hour
- Early access to improvements
- Easy feedback mechanism
- Try it at <https://beta.peeringdb.com>
- Contact us at pc@peeringdb.com with any questions

2024 Year in Review

	2023	2024	Difference	% Increase
Campuses	-	556	n/a	n/a
Carriers	-	8,164	n/a	n/a
Exchanges	1,152	1,239	87	7.6
Facilities	5,282	5,633	351	6.7

CC: Country Code

OP: Operator

LASN: Local ASN

TASN: Total ASN (IXP+Colo)

PDB: PeeringDB

Routed: in DFZ

IXP: Internet Exchange

ASN: Autonomous System

Colo: Colocation

TLASN: Total Local ASN

RIR: Regional Internet Registry

2024 New Feature Highlights

- Users tell us that search and data quality are important to them, and this was a big development area in 2024
- Networks whose ASN has been reclaimed by an RIR or NIR are automatically removed now
- v2 search
 - Introduced new v2 search functionality early last year with several enhancements over many releases
 - Key features
 - Use natural language queries in combination with the name in a geographic region
 - Search for a network prefixed with “AS”, partial matches show all relevant networks
 - Search for exchanges based on the facilities they are in
 - Search for campuses in in a geographic region, also displays a list of facilities
 - HOWTO: v2 Search (https://docs.peeringdb.com/howto/v2_search/)
 - Still work in progress

2024 New Feature Highlights

- peeringdb-py enhancements
 - Run queries locally on your infrastructure to avoid query limits and to get the best response time
 - Reduces PeeringDB load (= cost)
 - HOWTO: Install peeringdb-py (<https://docs.peeringdb.com/howto/peeringdb-py/>)
- Keyhole Markup Language (KML) export of geographic data
 - Very cool and very popular to import into GIS applications
 - Covered in many PeeringDB Updates presentations last year (<https://docs.peeringdb.com/presentations/>)
 - Better Search and Export (https://docs.peeringdb.com/blog/better_search_and_export/)
- VM deployments moved to containerized deployments
 - Reduced computing costs, adjusts compute resources dynamically and manages spending
 - Containerized Deployment (<https://docs.peeringdb.com/blog/containerize/>)

2024 New Feature Highlights

- New Carrier and Campus objects
 - Carrier: for provides offering L1 or L2 services in a Facility
 - Different from a Network which is for L3 services with an ASN
 - HOWTO: Get Started with PeeringDB as a Carrier Operator (<https://docs.peeringdb.com/howto/get-started-carrier/>)
 - Campus: two or more Facilities owned by the same organization with inter-Facility cross connects
 - HOWTO: Get Started with PeeringDB as a Facility or Campus Operator (<https://docs.peeringdb.com/howto/get-started-facility/>)
- Many other smaller enhancements, bug fixes, and security updates
 - Refer to the 2024 Release Notes for complete details (https://docs.peeringdb.com/release_notes/release_notes_2024/)

Website

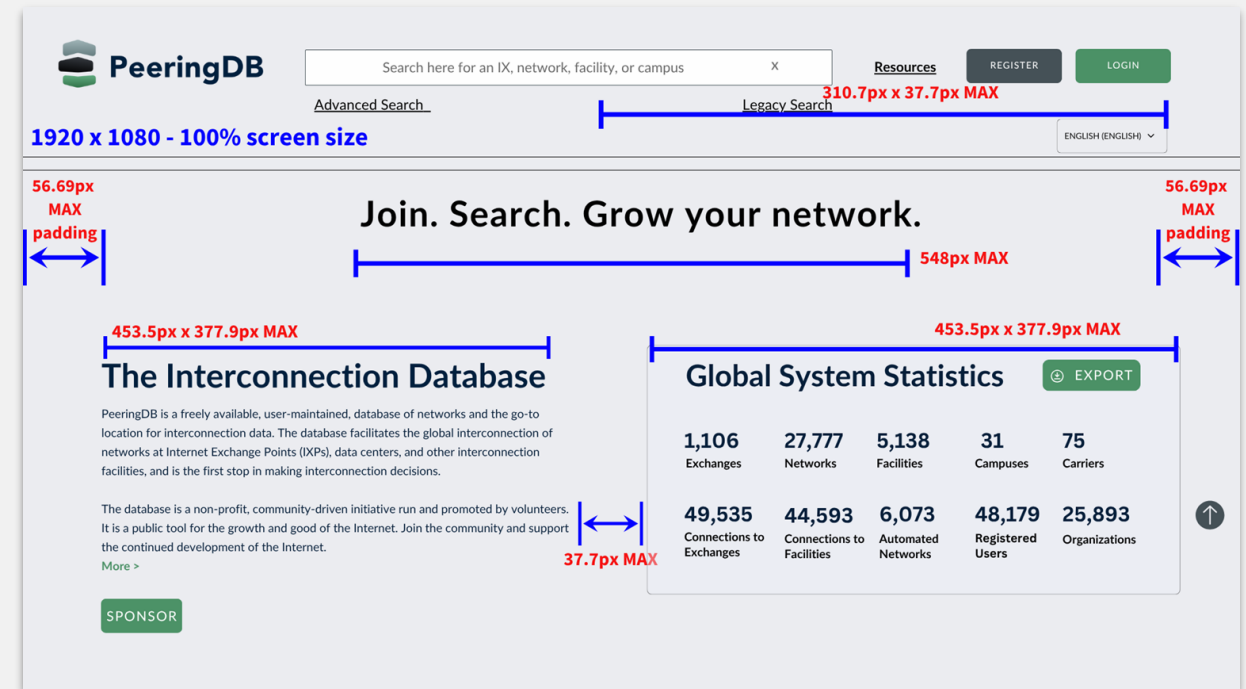

Better support for wide screens

Better support for mobile users

No radical change, no need to relearn

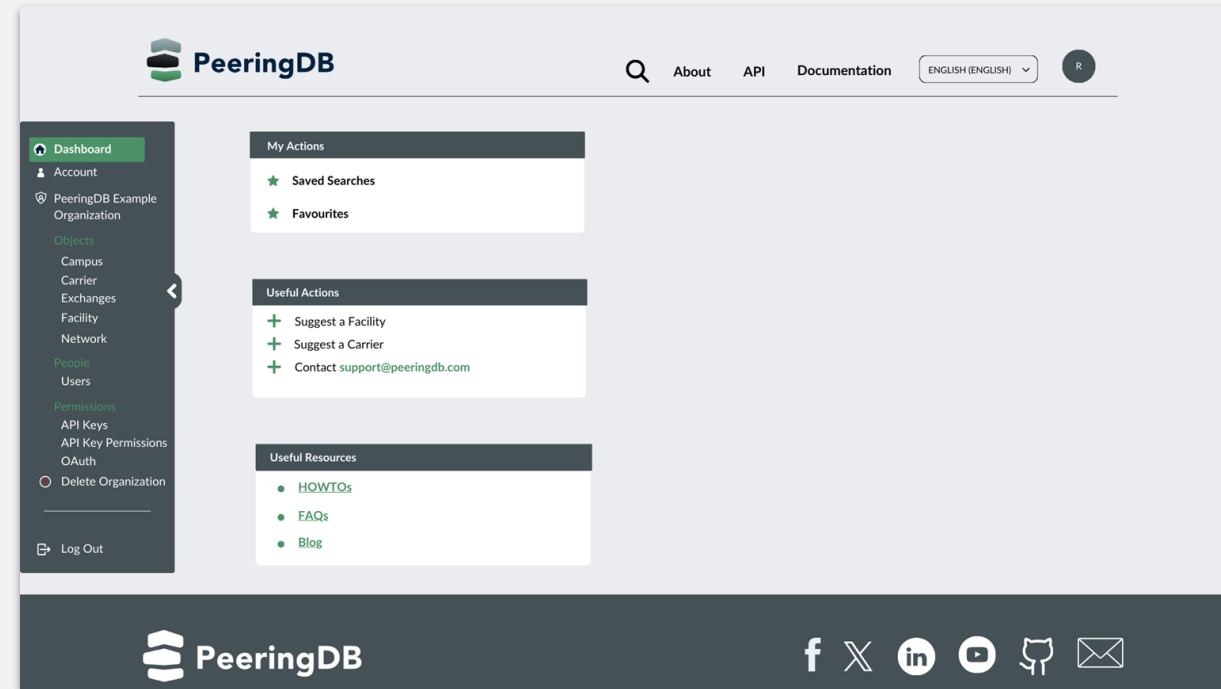

Deployed new design to PeeringDB volunteers and iterating based on feedback

- 1-in-5 users will be opted in
- They can opt-out
- Version control is next to dark mode control in profile

2025 Roadmap: Saved Searches, Notifications

- We're discussing ([#1736](#)) adding a “planned” status with a date
- It would integrate with notifications
- You could share a planned operational date for any object type
- Others could be notified of plans they are interested in

2025 Roadmap: Search

- Refactor v2 search code with improved automated testing
 - Results should be completer and more relevant
- Web search → API query link
 - Help less technical users develop one liners that improve their efficiency
- Implement search filters, e.g. hide IXPs without an ixfac
 - Give users more control over what they see
 - Will apply to authenticated web and user API Key usage
 - Once developed, other filters can be added as needed
- Implement Advanced Search in v2
 - Another step towards removing legacy search

```

2025 Roadmap: Analysis

- Adding a web tool to help users compare interconnection opportunities at facilities
- Add ASNs, add locations, view and export results

LOGO

	# ---- Name	# ---- Name	# ---- Name	# ---- Name
Network Type				
Traffic Level				
Exchanges				
Unique IXPs				
Unique ASNs	#30	#4	#25	#100
Unique Facilities	#4	#3	#2	#5
Common IXPs			#15	
Common ASNs			#28	
Common Facilities			#2	

2025 Roadmap: Operations and Bug Fixes

- We're working on making both the API and website more responsive
 - You can sync using peeringdb-py to keep queries local and integrate PeeringDB data with other sources
- We'll be developing
 - Additional support tools
 - Minor features
 - Bug fixes

News in brief

- MFA mandate went smoothly
- Completing the move from VMs to containers to allow more elegant scaling
- New [HOWTO](#) on contact data
- Setting up `peeringdb-py` is now just one command, ideal for a laptop
- We now normalize data for:
 - Country name
 - Province/state name
 - City name
 - Street address

2025: Survey!

- We have launched the 2025 User Survey
- Please spend 2 minutes to help us improve PeeringDB
- https://docs.peeringdb.com/blog/peeringdb_2025_user_survey

The screenshot shows a mobile interface for the "PeeringDB 2025 User Survey". At the top, the status bar shows the time 13:38, a Slack notification, and a battery level of 95%. Below the title, there is a link to "Sign in to Google to save your progress" and a "Learn more" link. The survey is divided into sections with green headers. The first section, "User Self Categorization", contains the question "How often do you use PeeringDB?" with four radio button options: "Every day", "Every week" (which is selected), "Once or twice a month", and "Occasionally or never". A "Clear selection" link is at the bottom right of this section. The second section contains the question "How do you mostly use PeeringDB?" with three radio button options: "Anonymous web user", "Authenticated web user", and "? API queries" (which is selected). At the bottom of the form, the URL "docs.google.com" is visible.

13:38 Slack 95

PeeringDB 2025 User Survey
